

Datasets

July 14, 2022

- **NEmo⁺**:
 - description: 1297 news items (image + headline text) with each news item having 10 emotional reactions (emotion category, intensity, free flow text explanations) for all three conditions T , I , TI .
 - location: `NEmoP.csv`
- **NEmo⁺-Consensus**:
 - description: subsets of the NEmo⁺ dataset with emotional consensus.
 - **NEmo⁺-CR**:
 - * description: filtered to only keep news items that have a rank difference of greater than or equal to $\tau_{\text{rank}} = 3$ in the emotional responses
 - * location: `NEmoP-Consensus/NEmoP-CR`
 - **NEmo⁺-CE**:
 - * description: filtered with entropy. We selected the entropy filtering threshold so that the resulting filtered dataset is similar in size to **NEmo⁺-CR**.
 - * location: `NEmoP-Consensus/NEmoP-CE`
