

Default Question Block

Relatedness test Quine

Thank you for participating in this study.

The test is split into two parts, both consisting of 31 questions, of which this is the second. The test will take approximately 50 minutes.

The question posed concern the relatedness of terms used by Quine. In the middle of the test, so after 16 questions, there is a small break. After finishing the test, you will be asked to answer a couple of questions reflecting on the test.

Please fill out this task in a quiet room with no distractions. You are allowed to look up the meaning of a word, but please do not discuss the meaning with someone else.

You will now first be asked to sign a consent form, then you will receive more specific instructions on the task.

Thank you for filling out all of the questions.

In this final part of the test a couple of reflective questions are asked. Please answer them truthfully to your experience.

Generally, how difficult did you find it to select the most related word?

On what did you mostly base your choice for the most related word?

Have you used another relationship than the ones listed in the instructions (synonymy, meronymy, hyperonymy, shared super term) ?

Have you looked up many definitions?

If so, what source did you use and did it help you? Do you think it has influenced any of your answers?

Did your experience of filling out this second part differ from filling out the first part of the test?

If so, how?

Do you have any other comments or remarks about the test in general?

Thank you so much for completing the second part of the test!
