Introduction

This volume contains the abstracts of the ACL 2017 tutorials. This year we had a joint call-for-tutorials, coordinated with the EACL and EMNLP co-chairs (6 co-chairs in total). We received 26 submissions for the joint ACL/EACL/EMNLP call, and it was a difficult task to make a final selection. The six co-chairs applied the following criteria for evaluation: relevance to ACL community, quality of proposal, quality of instructor, estimate of attendance, relevance of area. The tutorials were then assigned to venues trying to respect proposers' preferences and to balance topics across venues. Nine tutorials had ACL as the preferred conference, from which one was rejected, two were redirected to EMNLP and the rest (six of them) was accepted. All six are organised as half-day tutorials.

We are very grateful to Alex Klementiev and Lucia Specia (EACL tutorial chairs), Nathan Schneider and Alexandra Birch (EMNLP tutorial chairs), Priscilla Rasmussen and Anoop Sarkar (local chairs), Wei Lu, Sameer Singh and Margaret Mitchell (publication chairs), Min-Yen Kan and Regina Barzilay (program co-chairs) and of course Chris Callison-Burch (general chair) for various kinds of help, advice and assistance offered during the process of putting the tutorial programme and materials together. Most importantly, we would like to thank the tutorial presenters for the time and effort in preparing and presenting the tutorials.

We hope you will enjoy the tutorials!

ACL 2017 Tutorial Chairs

Maja Popović, Humboldt-Universität zu Berlin

Jordan Boyd-Graber, University of Colorado, Boulder

Tutorial Chairs:

Maja Popović, Humboldt-Universität zu Berlin

Jordan Boyd-Graber, University of Colorado, Boulder

Table of Contents

| | |
|---|----|
| <i>NLP for Precision Medicine</i> | |
| Hoifung Poon, Chris Quirk and Kristina Toutanova | 1 |
| <i>Multimodal Machine Learning: Integrating Language, Vision and Speech</i> | |
| Louis-Philippe Morency and Tadas Baltrušaitis | 3 |
| <i>Deep Learning for Semantic Composition</i> | |
| Xiaodan Zhu and Edward Grefenstette | 6 |
| <i>Deep Learning for Dialogue Systems</i> | |
| Yun-Nung Chen, Asli Celikyilmaz and Dilek Hakkani-Tür | 8 |
| <i>Beyond Words: Deep Learning for Multiword Expressions and Collocations</i> | |
| Valia Kordoni | 15 |
| <i>Tutorial: Making Better Use of the Crowd</i> | |
| Jennifer Wortman Vughan | 17 |

Conference Program

Sunday, July 30th

Morning Session

9:00–12:30 *NLP for Precision Medicine*
Hoifung Poon, Chris Quirk and Kristina Toutanova

9:00–12:30 *Multimodal Machine Learning: Integrating Language, Vision and Speech*
Louis-Philippe-Morency and Tadas Baltrušaitis

9:00–12:30 *Deep Learning for Semantic Composition*
Xiaodan Zhu and Edward Grefenstette

Afternoon Session

14:00–17:30 *Deep Learning for Dialogue Systems*
Yun-Nung Chen, Asli Celikyilmaz and Dilek Hakkani-Tür

14:00–17:30 *Beyond Words: Deep Learning for Multiword Expressions and Collocations*
Valia Kordon

14:00–17:30 *Tutorial: Making Better Use of the Crowd*
Jennifer Wortman Vughan
