COMPUTATIONAL INTELLIGENCE

Edited by NICK CERCONE & GORDON McCALLA

University of Regina and University of Saskatchewan

COMPUTATIONAL INTELLIGENCE is a leading international journal designed to promote and stimulate research in the field of artificial intelligence. Articles cover a wide range of AI issues—from the tools and languages of AI to its philosophical implications. Appealing to readers in research and industry, **COMPUTATIONAL INTELLIGENCE** provides a forum for experimental and theoretical research, surveys, and impact studies.

NOAM CHOMSKY

A Life of Dissent

Robert F. Barsky

"...recounts (the known and the little known) facts of Chomksy's life, evaluates his linguistic contribution and surveys the main quarrels. This is an essential book not only for Chomsky aficionados and adversaries, but for all students of American political and intellectual life." — Russell Jacoby, UCLA

256 pp., 29 illus. $27.50

Original in Paperback

LOCAL ECONOMY

Chris Collins

"This will provoke a great deal of constructive discussion and debate among syntacticians of all kinds. Collins has done an especially good job of making the work accessible to those of us who didn't 'grow up' in Building 20." — Molly Diesing, Cornell University

ELEMENTARY OPERATIONS AND OPTIMAL DERIVATIONS

Hisatsugu Kitahara

Concerned with the basic operations of the computational system underlying grammar, and with the grammatical principles that constrain linguistic derivations to be optimal.

COMPUTATIONAL APPROACHES TO LANGUAGE ACQUISITION

edited by Michael R. Brent

Makes new developments in the computational study of language, and reports on research carried out by cognitive scientists with primary training in computer science and a serious interest in psychological issues.

Cognition Special Issues series

WAYS OF MEANING

An Introduction to a Philosophy of Language • second edition

Mark Platts

"Finally, *Ways of Meaning* is back! The book remains as it was: a readable, uncluttered, introductory work...an intact version of the original, along with some very helpful additions. This is a godsend." — Peter Ludlow, SUNY at Stony Brook

326 pp., 3 illus. $25

FINITE-STATE LANGUAGE PROCESSING

edited by Emmanuel Roche and Yves Schabes

"This compendium will be one of the most important contributions to computational linguistics of the last ten years." — Franz Guenthner, Ludwig-Maximilians-Universität München

Language, Speech, and Communication series.
A Bradford Book • 472 pp. $45

SURFACE STRUCTURE AND INTERPRETATION

Mark Steedman

This is the first published attempt to bridge the gap between the Categorial Grammar tradition in linguistic research and other theoretical traditions, including the minimalist program.

HANDBOOK OF LOGIC AND LANGUAGE

edited by Johan F. A. K. van Benthem and Alice G. B. ter Meulen

The first comprehensive handbook for the combined study of logic and language. The twenty chapters show both sides of the interaction between logic and language: how logical systems are designed and modified in response to linguistic needs, and how mathematical theory arises out of this process and affects subsequent linguistic theory.

Association for Computational Linguistics

1997 MEMBERSHIP, CHANGE OF ADDRESS AND EMAIL, AND ORDER FORM

MEMBERSHIP

Membership in the Association for Computational Linguistics is for the calendar year, regardless of when dues are paid. Membership includes a full year of the ACL journal, Computational Linguistics, reduced registration at most ACL-sponsored conferences, and discounts on ACL-sponsored publications. Payments for membership dues, fund donations, back issues, and proceedings may be made in Europe or the USA. Follow the instructions under the PAYMENT heading carefully. *Provide all personal information, even if you have previously done so, to be sure the ACL membership database is up-to-date. Write legibly, please!*

MEMBERSHIP DUES FOR 1997

IMPORTANT NOTE: Renewals must be received no later than 1 April 1997 to avoid late payment fee assessment. Membership categories include Regular Members and the following: Couples with the same mailing address may be Joint Members; they will receive only one set of publications, but each will be eligible for all other member benefits. Students taking a full-time program of courses and not earning a regular income may become Student Members WITH COPY OF CURRENT STUDENT ID. Students who are not Student Members because of their income can still participate in student activites as Student-Employed. Also available are Retired and Unemployed memberships. **PLEASE CIRCLE OR HIGHLIGHT TYPE OF MEMBERSHIP BELOW THAT YOU DESIRE.** Late payment fee does not apply to new memberships.

PREPAYMENT is necessary; invoices and receipts are available upon request. The U.S. dollar price is definitive when paying in other currencies, although rounding off is appropriate. **CHECKS AND MONEY ORDERS SHOULD BE PAYABLE TO THE ASSOCIATION FOR COMPUTATIONAL LINGUISTICS** (or to ACL). Payment may be made by sending this form (or all pertinent details) and credit card information in email to acl@bellcore.com. The following payment choices are available:

1. CREDIT CARDS: Credit card payments MUST BE MADE TO THE ACL OFFICE IN THE USA. Visa and Mastercard only. Email, fax or hardcopy are acceptable.

2. CHECKS/MONEY ORDERS: TO THE ACL OFFICE IN THE USA: Send this dues statement in hardcopy with a check or money order to the address below. PAYMENTS MUST BE IN U.S. DOLLARS, DRAWN ON A U.S. BANK OR IN U.S. OR CANADIAN DOLLARS (CALCULATED AT THE CURRENT EXCHANGE RATE), DRAWN ON A CANADIAN BANK.

3. PAYMENTS TO EUROPE: Mail this form to Rosner with either (i) a Eurocheque or banker's draft IN SWISS FRANCS, payable "ACL" or (ii) a standard personal cheque drawn on a French bank in FRENCH FRANCS, payable "ACL" or (iii) photocopy evidence of interbank transfer to "ACL", account number 141.880.LAV at the Union Bank of Switzerland, 8 Rue du Rhone, CH-1211 Geneva 11, SWITZERLAND. Dollar price is definitive. For exchange rate information, use daily published exchange rate or see http://www.cs.um.edu.mt/acl/. NOTE THAT EUROPEAN MEMBERS SHOULD PAY THROUGH ROSNER UNLESS PAYING BY CREDIT CARD OR USE A U.S. BANK ACCOUNT.

4. PAYMENTS FROM JAPAN: Payments which were previously made through Prof. Makoto Nagao by bank transfer within Japan should now be made by credit card or hardcopy check or money order to the ACL Office in the USA by following one of the above sets of instructions. This change is being made for ease of accounting and, hopefully, will not inconvenience members.

Guidelines for Submissions

Manuscripts for **Computational Linguistics** should be submitted on letter-size paper (8.5 by 11 inches, or A4), double-spaced and single-sided throughout, including footnotes and references. The paper should begin with an informative abstract of approximately 150–250 words. Manuscripts must be written in English. Contact the editor regarding the possibility of electronic submission.

Submissions may be made in any of the following categories:

Papers: This category includes contributions that report significant new research results in computational linguistics or that provide critical reviews of the literature on a particular topic. The length of a paper depends on its content, but it is suggested that manuscripts be limited to forty double-spaced pages. That is the equivalent of thirty journal pages. Each paper is fully refereed, being read by at least two members of the editorial board and usually by an additional expert in the particular subject area. The submission of an article to CL for refereeing means that the author certifies the manuscript is not copyrighted; nor has it been published or submitted for publication to another refereed journal. If any version of the paper has appeared, or will appear, in a non-refereed publication, the details of such publication must be made known to the Editor at the time of submission. The final version of a paper tentatively accepted for publication must be accompanied by a Copyright Transfer Agreement signed by all of the authors or, in the case of a "work for hire," by the employer. This written transfer is necessary under the 1978 U.S. Copyright law.

Letters to the Editor: This category includes statements of opinion on issues relevant to the readership. The Editor and the editorial board will evaluate the appropriateness of these contributions for inclusion.

Five copies of papers or three copies of letters should be sent to:

Julia Hirschberg, CL Editor
AT&T Research
600 Mountain Avenue, 2C-409
Murray Hill, NJ 07974, USA
(+1 908) 582-7496; acl@research.att.com

Squibs and Discussions: This category includes short articles reporting technical results, discussions of results, algorithms, or new computational linguistic data or tools of interest to the journal readership. Submission format is the same as for regular papers, but the length should in no case exceed eight journal pages. Electronic submissions (LaTeX source, postscript or plain text) are welcome and should be submitted to:

Pierre Isabelle, CL Squibs and Discussions Editor
CWARC Communications Canada
1575 Chomedey Boulevard
Laval, Quebec, CANADA H7V 2X2
(+1 514) 973-5801; isabelle@citi.doc.ca

Book Section: Anyone interested in reviewing a book, or in suggesting a book for review, should contact the Book Review Editor; publishers may also submit copies of books for review directly to:

Graeme Hirst, CL Book Review Editor
University of Toronto
Department of Computer Science
Toronto, CANADA M5S 3G4
(+1 416) 978-8747; gh@cs.toronto.edu

The FINITE STRING: Send (a) summaries of research in progress — of particular interest would be perspectives on the activities at a particular institution; (b) announcements of meetings of potential interest to the membership; and (c) personal notes (e.g., honors, moving, changes in status) to The FINITE STRING Editor. Time-sensitive material should be received by the first day of the second month of each quarter to appear in the next issue. Submissions (where possible in electronic form) should be sent to:

Richard Sproat, FINITE STRING Editor
Bell Laboratories
600 Mountain Avenue, 2D-451
Murray Hill, NJ 07974, USA
(+1 908) 582-5296; rws@bell-labs.com

Founded in 1962, the Association for Computational Linguistics (ACL) is the primary scientific and professional society for natural language processing research and applications. A European chapter was established in 1982. Besides publishing *Computational Linguistics*, the ACL holds international meetings (annually in North America, biennially in Europe) where the state-of-the-art in natural language processing research and development is presented. Recently, special interest groups on the Mathematics of Language, the Lexicon, Parsing, Generation, Computational Phonology, and Multimedia Language Processing have been formed; others are likely to be added.
