Responsible NLP Checklist

Paper title: LoCt-Instruct: An Automatic Pipeline for Constructing Datasets of Logical Continuous Instructions

Authors: Hongyu Sun, Yusuke Sakai, Haruki Sakajo, Shintaro Ozaki, Kazuki Hayashi, Hidetaka Kamigaito, Taro Watanabe

How to read the checkl	ist symbols:
the authors respo	nded 'yes'
X the authors respo	nded 'no'
N/A the authors indica	ated that the question does not apply to their work
the authors did no	ot respond to the checkbox question
For background on topage at ACL Rolling R	the checklist and guidance provided to the authors, see the Responsible NLP Checklist eview.

\checkmark	A.	Questions	mandatory	for al	ll submissions.
--------------	----	-----------	-----------	--------	-----------------

- A1. Did you describe the limitations of your work? *This paper has a Limitations section.*
- ✓ A2. Did you discuss any potential risks of your work? Section8 Ethical Considerations
- **B.** Did you use or create scientific artifacts? (e.g. code, datasets, models)
 - ☑ B1. Did you cite the creators of artifacts you used? Section 3 LoCt-Pipeline
 - ☑ B2. Did you discuss the license or terms for use and/or distribution of any artifacts? *Section 3 LoCt-Pipeline*
 - ☑ B3. Did you discuss if your use of existing artifact(s) was consistent with their intended use, provided that it was specified? For the artifacts you create, do you specify intended use and whether that is compatible with the original access conditions (in particular, derivatives of data accessed for research purposes should not be used outside of research contexts)?

 Section 3 LoCt-Pipeline
 - B4. Did you discuss the steps taken to check whether the data that was collected/used contains any information that names or uniquely identifies individual people or offensive content, and the steps taken to protect/anonymize it?

 Section 8 Ethical Considerations
 - ☑ B5. Did you provide documentation of the artifacts, e.g., coverage of domains, languages, and linguistic phenomena, demographic groups represented, etc.?

 Section 3 LoCt-Pipeline
- ☑ B6. Did you report relevant statistics like the number of examples, details of train/test/dev splits, etc. for the data that you used/created?

 Section 3 LoCt-Pipeline

√	C. Did you run computational experiments?
✓	C1. Did you report the number of parameters in the models used, the total computational budget (e.g., GPU hours), and computing infrastructure used? Section 4 Experimental Settings
✓	C2. Did you discuss the experimental setup, including hyperparameter search and best-found hyperparameter values? Section 4 Experimental Settings
✓	C3. Did you report descriptive statistics about your results (e.g., error bars around results, summary statistics from sets of experiments), and is it transparent whether you are reporting the max, mean, etc. or just a single run? Section 5 Experimental Results and Discussions
✓	C4. If you used existing packages (e.g., for preprocessing, for normalization, or for evaluation, such as NLTK, SpaCy, ROUGE, etc.), did you report the implementation, model, and parameter settings used? Section 4 Experimental Settings
	D. Did you use human annotators (e.g., crowdworkers) or research with human subjects?
✓	D1. Did you report the full text of instructions given to participants, including e.g., screenshots, disclaimers of any risks to participants or annotators, etc.? Appendix E Human Evaluation Metrics
N/A	D2. Did you report information about how you recruited (e.g., crowdsourcing platform, students) and paid participants, and discuss if such payment is adequate given the participants' demographic (e.g., country of residence)? It is beacuase we annotated by our annotation team and we have not hired them.
N/A	D3. Did you discuss whether and how consent was obtained from people whose data you're using/curating (e.g., did your instructions explain how the data would be used)? We have not use outsourcing, all rights are received to us.
N/A	D4. Was the data collection protocol approved (or determined exempt) by an ethics review board? We have not collected data

☑ D5. Did you report the basic demographic and geographic characteristics of the annotator population

E. Did you use AI assistants (e.g., ChatGPT, Copilot) in your research, coding, or writing?

☑ E1. If you used AI assistants, did you include information about their use?

that is the source of the data?

Section8 Ethical Considerations

Appendix E Human Evaluation Metrics
