The Tenth Biennial Conference of the
Association for Machine Translation in the Americas

Using MT in Today's CAT Tools

Jost Zetzsche

International Writers' Group

SAN DIEGO, CA
OCTOBER 28- NOVEMBER 1, 2012

This tutorial will present a survey of how machine translation is integrated into current CAT tools and illustrate how the technology can be used appropriately and profitably by the professional translator.

Presenter

- Jost Zetzsche, PhD, Independent Translation and Localization Professional, Principal of International Writers' Group, author of The Translator's Tool Box: A Computer Primer for Translators and the Tool Box, a monthly newsletter on technology for people in the translation industry.
