Volume 1

Rhythm and Meter

edited by

Paul Kiparsky and Gilbert Youmans

This volume discusses the analysis of verse metrics and, more generally, the sound structure of all spoken language. While phonological theory remains a central concern for most of the authors of this coherent collection of articles, the emphasis is placed on metrical theory, formulating and illustrating metrical principles within the tradition of generative metrics as well as within competing traditions.

CONTENTS: *G. Youmans*, Introduction: Rhythm and Meter. *R. Jackendoff*, A Comparison of Rhythmic Structures in Music and Language. *A. Prince*, Metrical Forms. *M. Halle*, Addendum to Prince's "Metrical Forms." *R.T. Oehrle*, Temporal Structures in Verse Design. *M. Tarlinskaja*, General and Particular Aspects of Meter: Literatures, Epochs, Poets. *B. Bjorklund*, Iambic and Trochaic Verse—Major and Minor Keys? *D. Attridge*, Linguistic Theory and Literary Criticism: The Rhythms of English Poetry Revisited. *B. Hayes*, The Prosodic Hierarchy in Meter. *E.R. Weismiller*, Triple Threats to Duple Rhythm. *E.C. Traugott*, Meter in Auden's "Streams." *P. Kiparsky*, Sprung Rhythm. *G. Youmans*, Milton's Meter. Index.

*The leading interdisciplinary forum
for natural language semantics*

Journal of SEMANTICS

Includes:

- * Contributions from the fields of philosophy, psychology, linguistics and artificial intelligence
- * Original research papers
- * Review articles
- * Notes, discussions, and book reviews

The Journal of Semantics is the leading international forum for the rapid developments that have taken place over the last decade in the field of natural language semantics. Increasingly, its crucial relevance has been recognized in all areas of natural language research. High formal standards have been set as it has striven to meet the growing need for computational and empirical adequacy. This process has been aided by the intense interdisciplinary exchange and co-operation that has simultaneously occurred, setting new standards for the field as a whole and working towards a true integration.

The Journal's editors and advisory board are composed of internationally established specialists, and it is firmly rooted in the interdisciplinary study of natural language semantics, with linguistics, psychology, philosophy, and artificial intelligence as the major contributing disciplines.

ACL 1990 DUES STATEMENT

ACL MEMBERSHIP DIRECTORY Planned; Please Provide Complete Phone & Email Information

Membership in the *Association for Computational Linguistics* is for the calendar year, regardless of when dues are paid. Membership includes a full year of the *ACL* journal **Computational Linguistics**, reduced registration at most *ACL*-sponsored conferences, and discounts on *ACL*-sponsored publications. A **late payment fee will be charged for renewals made after 15 March**; this fee does not apply to new members. Institutions now *subscribe* to the journal through MIT Press Journals, 55 Hayward Street, Cambridge, MA 02142 USA; (+1-617)253-2889. Back issues and proceedings are available only from the *ACL* Office, except that institutions should backorder journals from 1988 on through MIT Press. An order form is on the other side of this statement. Payments for dues, back issues, and proceedings can be made in Europe and Japan as well as the U.S.; **most Europeans should pay through Europe**; read the directions under the heading **PAYMENT** below carefully. *Identify your institutional affiliation if it is not part of your address.* Also provide your telephone country & city codes and your computer network & email address.

The *ACL* set up a fund in 1982 to make *ACL* memberships and publications available to colleagues who have difficulty in using their national currencies for international transactions or for whom membership would otherwise be impossible. Contributions may be tax-deductible in the United States and in some other countries; check local regulations.

PAYMENT: Prepayment is necessary; invoices are available on request. The U.S. dollar price is definitive when paying in other currencies. Checks and money orders should be made out to the *Association for Computational Linguistics* (or to *ACL*). Payments can be made to one of the addresses below, as follows:

1. In the USA to Walker; mail this dues statement with a check or money order *payable to ACL*. Note: **PAYMENTS IN THE USA MUST BE MADE IN U.S. DOLLARS, DRAWN ON A U.S. BANK.**
2. In Europe to Rosner; mail this dues statement with a check or money order in Swiss francs or the equivalent in your local currency on the day the check is written, *payable to ACL*. Ensure that the check is payable in Switzerland or France. **Do not issue a check or money order in U.S. dollars unless it is drawn on a U.S. Bank.** Payment can also be made by bank transfer to *ACL* account number 141.880.LAV at the Union Bank of Switzerland, 8 rue de Rhone, CH-1211 Geneva 11, SWITZERLAND. Send Rosner a copy of the bank transfer as well as the dues statement. Note: **EUROPEAN MEMBERS SHOULD PAY THROUGH ROSNER UNLESS THEY HAVE A U.S. BANK ACCOUNT.**
3. In Japan to Nagao; transfer an equivalent amount in yen on the day of payment to "Dai-ichi Kangyo Bank, Hyakumanben Branch; Ordinary Deposit, 476-1319944; Name: Keisangengogakkai Kaihi Nagao Makoto." Mail this dues statement to Walker together with a copy of the bank transfer. Also send Nagao a copy of the bank transfer. Note: **THE DUES STATEMENT MUST BE SENT TO WALKER TO BE PROPERLY RECORDED IN THE ACL OFFICE.**

Guidelines for Submissions

Manuscripts to **Computational Linguistics** should be submitted on letter-size paper (8.5 by 11 inches, or A4), double-spaced throughout, including footnotes and references. The paper should begin with an informative abstract of approximately 150-250 words. Manuscripts must be written in English. Contact the editor regarding the possibility of electronic submission.

Submissions may be made in any of the following categories:

PAPER: This category includes contributions that report significant new research results in computational linguistics or that provide critical reviews of the literature on a particular topic. The length of a paper depends on its content, but we suggest that manuscripts be limited to forty double-spaced pages. That is the equivalent of twelve journal pages. Each paper is fully refereed, being read by at least two members of the editorial board and usually by an additional expert in the particular subject matter.

The submission of an article to CL for refereeing means that the author certifies the manuscript is not copyrighted; nor has it been published or submitted for publication to another refereed journal. If any version of the paper has appeared, or will appear, in a non-refereed publication, the details of such publication must be made known to the Editor at the time of submission. The final version of a paper tentatively accepted for publication must be accompanied by a Copyright Transfer Agreement signed by all of the authors or, in the case of a "work for hire," by the employer. This written transfer is necessary under the 1978 U.S. Copyright law.

TECHNICAL CORRESPONDENCE: This category includes short articles reporting preliminary results of some project in progress, or the results of other studies of interest to the readership. Technical correspondences should not generally exceed eight double-spaced pages. Each technical correspondence is reviewed by at least two members of the editorial board before acceptance.

LETTERS TO THE EDITOR: This includes statements of opinion on issues relevant to the readership. The Editor and the editorial board will evaluate the appropriateness of these contributions for inclusion.

Five copies of papers, technical correspondences, and letters should be sent to the Editor:

James F. Allen, CL Editor
Department of Computer Science
University of Rochester
Rochester, NY 14627, USA
INTERNET:acl@cs.rochester.edu

Anyone interested in reviewing a book, or in suggesting a book for review, should contact the Book Review Editor; publishers may also submit copies of books for review directly to the Book Review Editor:

Graeme Hirst, CL Book Review Editor
Department of Computer Science
University of Toronto
Toronto, CANADA M5S 1A4
INTERNET:gh@ai.toronto.edu

The FINITE STRING Editor should receive (a) copies of technical reports and reprints of papers published elsewhere—or at least citation information and abstracts of such items and of books and monographs; (b) summaries of research in progress—of particular interest would be perspectives on the activities at a particular institution; (c) announcements of meetings of potential interest to the membership; and (d) personal notes (e.g., honors, moving, changes in status). Time-sensitive material should be received by the first day of the second month of each quarter to appear in the next issue. Submissions (where possible in electronic form) should be sent to The FINITE STRING Editor:

Ralph Weischedel, Finite String Editor
BBN Systems & Technologies Corporation
10 Moulton Street
Cambridge, MA 02238, USA
INTERNET:weischedel@bbn.com
