Errata

In the Squib by Yves Bestgen ("Improving Text Segmentation Using Latent Semantic Analysis: A Reanalysis of Choi, Wiemer-Hastings, and Moore" (2001) in Issue 32:1 [March 2006]), the author refers to two papers by Choi et al. as appearing in NAACL 2001. However, only one is listed. The Choi, Wiemer-Hastings, and Moore (2001) citation should be as follows:

Choi, Freddy Y. Y., Peter Wiemer-Hastings, and Johanna Moore. 2001. Latent semantic analysis for text segmentation. In *Proceedings of the Conference on Empirical Methods in Natural Language Processing*, Carnegie Mellon University, Pittsburgh, PA, pages 109–117.
