

A Generated Sentences

Table 9 shows three examples with sentences generated by S2S, Song et al. (2018), G2S-GGNN, and the reference sentence (GOLD).

B Human Evaluation Setup

- For each quality evaluation task (meaning similarity and readability), we independently sampled 100 generated sentences for each model.
- We created separate HITs for meaning similarity and readability evaluations. Each HIT contains 10 sentences.
- We paid \$0.15 per HIT, employing five workers on each. For qualification, workers were required to have over 1000 approved HITs.
- We applied a quality control step. We removed workers who do not achieve a minimum threshold in sentences with known scores.

GOLD	I don't want to be miserable anymore and the longer he is around the more miserable I will be.
S2S	If he was in longer longer, I don't want to miserable and more miserable.
